End of May 2010 a real international conference about the CMS Joomla takes place in Wiesbaden, Germany. With [J and Beyond](#) Joomfish supports the second event as sponsor and will bring our whole team to Wiesbaden. Our idea is to have a 1 hour slot somewhen beside the normal conference to discuss the future of Joomfish. Get your feedback, wishes and ideas.

The whole Joomfish team is quite excited about the opportunity to meet again during such an awesome conference. This year having speakers such as Andrew Eddie, Hannes Papenberg, Steve Burge, Matthias Verraes, Sandro Groganz just to name a few, is quite impressive. I also know that Matthew Philogene will present a JoomFish based project from South Africa and many more Joomfish users, agencies and others will be on site.

So the big question is: Are you coming to the event? If yes please add a short comment here and may be tell us what is important for you during the event, related to Joomfish and in general. With these information we can may be prepare a bit and make sure that you get the answers you are looking for.

We are looking forward to meeting you in less than 2 weeks @ J and Beyond 2010, Wiesbaden, Germany #jab10
